

**I have a couple of things for sale!**

**FOR SALE: Mint condition Skutt Firebox 8, been fired a couple of times at most.**

Here's the details:

The Firebox 8 is a side firing kiln, with the elements in all four walls for an even firing. The lid itself is a lightweight brick construction coated with refractory cement. It has a cool-touch handle. The chamber is also made from lightweight brick, which is used because it is able to expand and contract as the kiln heats and cools. It also helps reduce the overall weight of the kiln. The whole kiln is set on sturdy metal feet.

Includes: kiln shelf, 3 shelf props

## FOR SALE - Water Fed Drill and Diamond Core Drill Bits

I am only selling as I have upgraded my set up. The Drill is well used but works well.

I am including 10 used but plenty of life, diamond core Drill bits that new are worth several hundred alone. Ranging from 10mm to 50mm. I'll pop in a dressing stone too.

It could do with a new pump for the water feed soon, but these are easy to change over.

£700 collect from Tewkesbury, Gloucestershire.
