

**Selling a second-hand Paragon F240 with programmable SENTRY glass-kiln specific controller for £1000 (or nearest offer) as we have to move studio buildings later this year.**

**It includes:**

- Elements on the top and sides internally,
- Has a framework door but can be used for fusing, slumping, enamelling etc.
- The interior is roughly 45cm W x 45cm D x 33cm H.  
Exterior roughly 74cm W x 88 cm D x 74 cm H (but shape is irregular)  
Weight: Heavy! Approx 190kg, needs at least 2 strong people to lift)

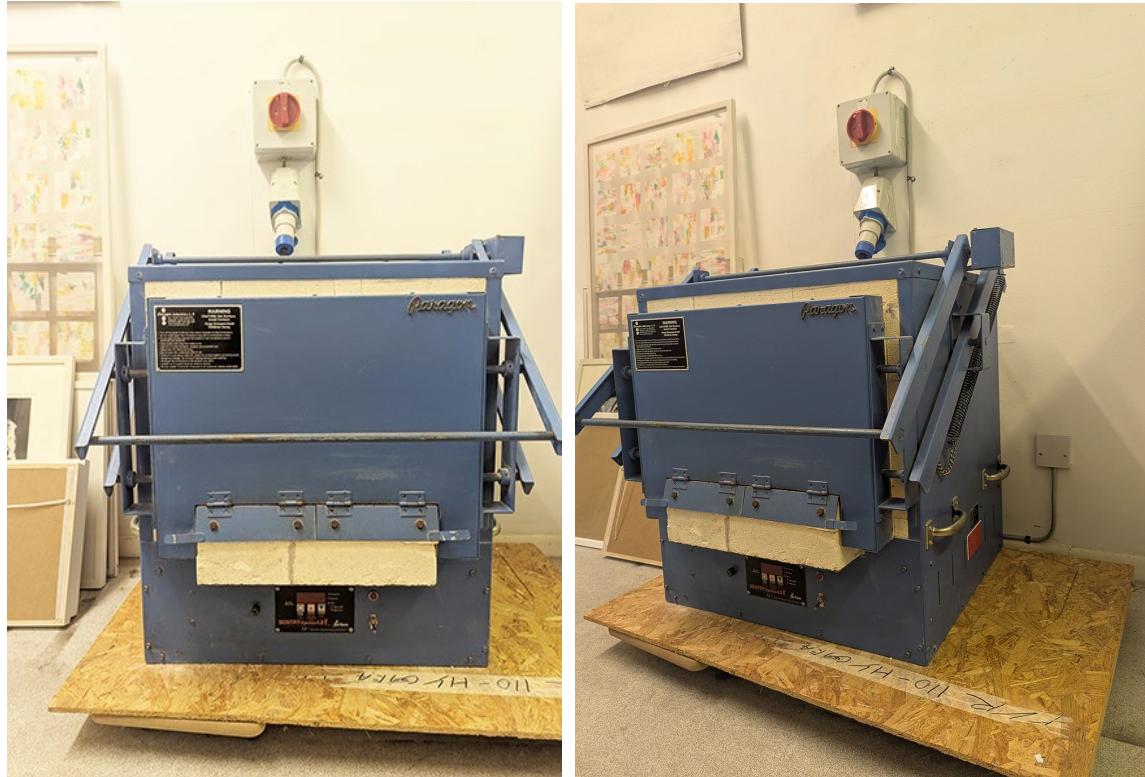

Has a round single-phase plug and the socket with master switch breaker which needs to be wired in by an electrician. It has got some issues which need some maintenance (interior bricks, and possibly the breaker/ thermocouple needs replaced, but nothing major for someone able to set it up for regular use).

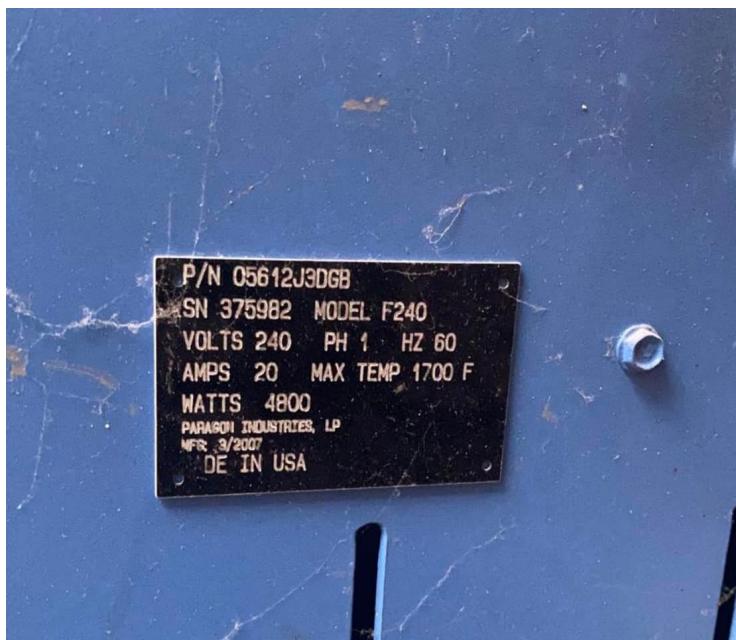

**Must be collected from Belfast.**

Open to discussion or some other payment arrangement for an emerging artist or someone starting out - please email, [meadhbhmc@gmail.com](mailto:meadhbhmc@gmail.com) to discuss.
